

HAND CREAM “BE YOUNG & PRETTY”

Is it necessary to recall that our age can also be read on our hands ?

Maturing and dryness of the skin, unsightly small brown spots, brittle nails, etc. It partly reveals our history and our attention to the protection of our hands meanwhile we focus our efforts to erase wrinkles on our face and beautify our complexion.

Sophim helps you to fight against their premature aging thanks to its new Hand Cream formula « **Be Young & Pretty** ».

This delicately scented emulsion surprises everyone by its immediate softness, express penetration and ultra comfortable residual film.

Its multifunctional natural composition can act on :

- the quality of the hydrolipidic film, flexibility and daily skin hydration through a unique vegetable complex based on **Phytosqualan**[®] (pure olive squalane) & **Biophytosebum**[®] (wax-ester enriched with olive squalene), active emollient rich in unsaponifiables, not greasy, not oily, Eco-certified.
- adapted protection of external aggressions (cold, sun, pollution, dryness) thanks to the presence of **Karite ON** (shea oil) and **Organic Virgin Baobab Oil** : UV protection, healing, moisturizing.
- the anti-ageing effects from the **Argan Butter** rich in essential fatty acids and sterols.
- the nail care through the virgin organic camellia oil : it prevents brittle nails, it has restoring and anti-radical properties.

On the galenic point of view, this formulation gives a very unctuous and comfortable texture with a velvety touch, thanks to **Phytowax Olive 8L28** (olive wax-esters with low melting point) and **Vegeline 65** (vegetable Petrolatum). You can obtain a good viscosity and consistency but still with a smooth touch and easy spreading onto the skin.

Result : a light anti-ageing hand cream, skin compatible, protecting, moisturizing, in order to stay forever « **Young and Pretty** » !
